REP. VOS: STATEMENT ABOUT SECOND SPECIAL SESSION ON JOBS

MADISON...Rep. Robin Vos (R-Rochester) released the following statement about the Governor's executive order calling the Legislature into a special session on jobs.

"The top priority in the Assembly has been job creation since day one. I welcome this second special session; it reaffirms our commitment to revive our state's economy. It shows our citizens, job creators and the country that Wisconsin means business."

"We know that focusing on pro-jobs legislation does pay off. Our early efforts have resulted in a jump of 17 spots in a ranking of business friendly states and job numbers that outpaced the nation for the first six months of the year. There's renewed confidence in our state with 88 percent saying we're going in the right directions. I'm positive that additional legislative efforts will produce even better results."

"I look forward to working on the bi-partisan list of bills that the governor has outlined in his special session call. It's time both parties put aside their differences and collaborate on legislation to get Wisconsin residents back to work."
